Light up Creativity

Be surrounded by nature and new friends who all want to relax and tap into their creativity. Whether you need to unplug to recharge or bounce ideas off someone else, you have a choice to explore what your spirit needs. Being in nature allows you to attune to your inner wisdom. A community opens up further resonance to innovate it.

Expand Your Horizon

Wander the Italian countryside to activate your creativity. Or enjoy new adventures by visiting nearby towns and historical sites. You are welcome to rent a car and explore Umbria solo or with others from the villa. Leverage Kerri for excursion ideas.

Nourish yourself

When your body is nourished with soul-filling, Italian cuisine, you create clarity in your mind. We'll eat family-style and co-create at least 3 meals together at the villa. If you have a rental car, you may want to enjoy meals at local towns that are just 10km-15km away (6-10 miles).

Connect your mind, body and spirit

Spend this week detaching from schedules and connecting to ease & flow.

When you slow down to reconnect your mind, body, and spirit, you are unstoppable! Know your path forward by slowing down. Every morning an intention will be offered and an opportunity to connect with all the guests. Otherwise, your schedule is open. Co-creating dinner & sharing family-style creates connection.

WHO'S ORGANIZING THIS?

We are you hostesses for Creation Vacation 22

Taryn Laakso, PCC & CPQC

It's been a long two years of building a business. I have felt disconnected, and I am longing for connection, celebration in person. I'm tired of only getting snippets of time and I am craving a vacation where I get to sit amongst my peers without time constraints and other obligations. I want to create a delicious vacation that allows for me and others to connect over yummy meals & adventures under the Italian sun.

Marjorie Schreur, CPCC & CYT

You, the elements, the earth and the medicine.

Marjorie guides neurodivergent, impact-driven women to come home to themselves. She integrates coaching, somatic movement, and plant medicine to create a grounded leadership rooted in a connection to ourselves and earth.

Rooted in her core belief that you simply cannot think your way into embodiment, nor intellectualize your empowerment, instead she promotes the integration of mind, body, and spirit through direct experience.

Kerri Wood, Tour Director

One day, over a decade ago, Kerri stood on a rooftop terrace overlooking the heart of Rome for the first time and knew, in that instant, she was home. Kerri started a business that would bring her back to Italy every year after that... helping others not make the mistakes she made, and allowing them to enjoy, relax and immerse in this amazing country.
